The buyer is under contract for a _____ puppy. The puppy is being purchased for the amount of \$ _____ with a \$500 (nonrefundable) reservation fee to hold a puppy. At the time of the receipt of deposit you will be notified as to what number you are on the reservation list. A second deposit of \$1000 (nonrefundable) is due on or before 6 weeks when the owner will choose their puppy. The reservation fees will be applied to the price of the puppy and the remaining balance due will reflect the payments made. This puppy is to be paid for in full on or before the date the puppy is 8 weeks of age by Zelle, cashiers check, or cash only. The deposits will only be refunded if a puppy is not available.

The buyer understands that because Goldendoodles are a crossbreed and are not a “standardized breed”, the dog is not guaranteed to be hypoallergenic or non shedding; and no guarantee is made regarding size, weight, or coat types when grown. Seller has endeavored to make the best match possible between Puppy and Buyer.

Breeder agrees to transfer over PET ONLY rights and responsibilities associated with the ownership of this puppy.

To the **Buyer** as of **Pick-up Date** _____. This warranty and guarantee represent the entire agreement between the Breeder and Buyer. In an outright sale. Payment in full is due before the puppy may leave the Breeder’s premises.

By signing this contract, the Buyer agrees that they are 100% satisfied with the puppy they have picked, their puppy’s temperament type, energy level and overall adoption experience with High Desert Goldendoodles. Under no circumstances will you be

pressured into taking a puppy you did not agree to. This contract states that you agree to all the above and all of conditions set forth below.

This puppy is guaranteed to be in good health, to the best of the seller's knowledge, at the time of delivery.

INITIAL HEALTH GUARANTEE

You have a 72 hour health guarantee.

As of the date of pick up, the puppy has received proper vaccinations, dewormings, and necessary veterinary attention due to date. The puppy will NOT need immunizations within the first 7-day vet visit.

HDG has instructed the buyer to have the puppy checked by a licensed veterinarian within three business days of purchase. If the buyer fails to take this puppy to the veterinarian within the specified time, then the buyer agrees this puppy was in good health at the time of purchase. If the buyer's veterinarian finds this puppy to have any serious or chronic health issues, the buyer may immediately return the puppy along with the report and diagnosis issued by the veterinarian and the breeder will offer a full refund of the purchase price or a puppy of equal value (if one is available) from the next available litter.

Buyer understands that HDG has instructed buyer not to take puppy to public places (including, but not limited to, parks, neighbors, pet supply stores, puppy classes/training, etc.) frequented by other puppies or dogs until the puppy has received its final rounds of shots (to be determined by a licensed veterinarian, usually 16 weeks of age). This is for the health of the puppy and to avoid contact with areas where infected or un-vaccinated dogs may have been or may be present with such illnesses/bacteria/fungus causing parvovirus, giardia, clostridia, coccidian, etc. This is to protect the puppy, and could save the puppy's life. Any illness contracted from the buyer's decision not to follow these guidelines will void this guarantee.

LONG TERM 24 MONTH HEALTH GUARANTEE

High Desert Goldendoodles stands behind the health of our puppies, and offers a 24 month non-transferable health guarantee.

If the puppy is diagnosed with a genetic or congenital disorder that is life threatening or greatly diminishes the dog's quality of life and that is identified within 24 months from the puppy's date of birth, buyer will have the option of receiving:

- If available a replacement puppy from the next available litter of comparable gender/color/breed and generation or a puppy of similar acceptable color/breed and generation; or,
- Monetary reimbursement, up to the purchase price of the puppy/dog, for all veterinary expenses related treatment (does not include reimbursement for food). Paid vet bills are to be provided to buyer to seller within thirty days of charges incurred. Said refund to be paid no later than from the next subsequent litter bred by seller, at seller's discretion.

Request and submission of documentation shall be submitted to High Desert Goldendoodles by buyer within 30 days of diagnosis. Proof of spay/neuter by 12 months old must accompany any request for warranty reimbursement. The original dog does not need to be returned, but if the buyer desires to rehome the dog, then it must be returned to the breeder.

What is Covered

Basic warranty: High Desert Goldendoodles guarantees your dog for 24 months from the date of birth for:

Genetically-caused hip or elbow dysplasia, providing the puppy has not been overweight, exposed to unhealthy environmental conditions, trauma, abuse, or had any physical injury or issues whose cause is unknown or may have an environmental link.

Eye Disorders. Any congenital or genetic defect of the eye causing progressive blindness in one or both eyes and/or requiring surgery or ongoing medication, as diagnosed by a Veterinary Ophthalmologist. Proof is to include copies of diagnosis and treatment documentation from a Board Certified Veterinary Ophthalmologist.

Cardiac (heart) Any genetic or congenital heart disorders requiring surgery or a heart disorder requiring life-long medication diagnosed by a Board Certified Canine Cardiologist.

Von Willebrand Disease (vWD) (blood disease) (proof submission to include verification by using a DNA test for vWD)

A hereditary/congenital disorder that is life threatening or greatly diminishes the dog's quality of life, diagnosis to be verified by a lab or expert with knowledge in the field, and proof submitted to Seller.

What is not covered

This warranty does not include viral illnesses, infections, improper bites, hernias, hypoglycemia, worms, giardia or coccidiosis. It also does not include any illness due to the ingestion of foreign objects, food, plants, chemicals or other items, physical injury or issues whose cause is unknown or may have an environmental link or illnesses from unknown causes that are not preventable by genetic pre-screening including but not limited to cancerous growths. Not included in this guarantee are health problems arising from trauma, abuse or failure to maintain general health care of this dog, including allowing the dog to become overweight. Also not included is injury to joints or bones

from over-exercise. Since current veterinary science shows that dysplasia is more a product of nutrition and environment than genetics, dogs that are at any point overweight or that incur injury to bones or joints from over-exercise or exposure to improper or harsh environment are explicitly excluded from warranty of hip or elbow dysplasia. Veterinary records must be provided to seller if requesting refund or replacement. Under no circumstances shall the seller be liable to the buyer or to any third party for a dog that has been subjected to abuse, accident, negligence, or misuse. Also, under no circumstances shall the seller be liable for any consequential, incidental, or special damages resulting from or in any manner related to this dog.

All refunds are cumulative and once the full purchase price of the puppy has been refunded to the buyer, for whatever cause, the warranties expire and the seller has no further monetary obligation to the buyer.

Buyer Responsibilities:

- Take the puppy to a licensed veterinarian within one week of leaving our property for a wellness puppy check. No vaccinations will be needed at this visit as MA Doodles has our puppies vaccinated by the age of 8 weeks. Buyer will be made fully aware of vaccination schedule at the time of pick up and will be made aware of when the next series of vaccinations are due. If the puppy receives a repeat vaccination at the puppy wellness check it will void out any health guarantees as over vaccinating a puppy can cause a health risk and lead to death.
- Provide routine preventative health care including, but not limited to,

Failure

to do any of the above voids this guarantee.
