FAMILY DOODLES

INITIAL HEALTH GUARANTEE

You have a 72 hour health guarantee.

As of the date of pick up, the puppy has received proper vaccinations, dewormings, and necessary veterinary attention due to date. The puppy will NOT need immunizations within the first 7-day vet visit.

HDFD has instructed the buyer to have the puppy checked by a licensed veterinarian within three business days of purchase. If the buyer fails to take this puppy to the veterinarian within the specified time, then the buyer agrees this puppy was in good health at the time of purchase. If the buyer's veterinarian finds this puppy to have any serious or chronic health issues, the buyer may immediately return the puppy along with the report and diagnosis issued by the veterinarian and the breeder will offer a full refund of the purchase price or a puppy of equal value (if one is available) from the next available litter.

Buyer understands that HDFD has instructed buyer not to take puppy to public places (including, but not limited to, parks, neighbors, pet supply stores, puppy classes/training, etc.) frequented by other puppies or dogs until the puppy has received its final rounds of shots (to be determined by a licensed veterinarian, usually 16 weeks of age). This is for the health of the puppy and to avoid contact with areas where infected or un-vaccinated dogs may have been or may be present with such illnesses/bacteria/fungus causing parvovirus, giardia, clostridia, coccidian, etc. This is to protect the puppy, and could save the puppy's life. Any illness contracted from the buyer's decision not to follow these guidelines will void this guarantee.

LONG TERM 24 MONTH HEALTH GUARANTEE

High Desert Family Doodles stands behind the health of our puppies, and offers a 24 month non-transferable health guarantee.

We will extend the warranty to 48 months under the conditions that (a) the puppy does not run on asphalt/concrete for the first year, and (b) the puppy is fed the approved diet for the four years.

This approved diet is:

- 1/3 grain-free Pawtree kibble
- 1/3 grain-containing Pawtree kibble
- 1/3 grain-containing Purina Pro Plan 30/20 Performance
- Daily Dog Probiotics

If the puppy is diagnosed with a genetic or congenital disorder that is life threatening or greatly diminishes the dog's quality of life and that is identified within 24 months from the puppy's date of birth, buyer will have the option of receiving:

- If available a replacement puppy from the next available litter of comparable gender/color/breed and generation or a puppy of similar acceptable color/breed and generation; or,
- Monetary reimbursement, up to the purchase price of the puppy/dog, for all veterinary expenses related treatment (does not include reimbursement for food). Paid vet bills are to be provided to buyer to seller within thirty days of charges incurred. Said refund to be paid no later than from the next subsequent litter bred by seller, at seller's discretion.

Request and submission of documentation shall be submitted to High Desert Family Doodles by buyer within 30 days of diagnosis. Proof of spay/neuter by 12 months old must accompany any request for warranty reimbursement. The original dog does not need to be returned, but if the buyer desires to rehome the dog, then it must be returned to the breeder.

What is Covered

Basic warranty: High Desert Family Doodles guarantees your dog for 24 months from the date of birth for:

Genetically-caused hip or elbow dysplasia, providing the puppy has not been overweight, exposed to unhealthy environmental conditions, trauma, abuse, or had any physical injury or issues whose cause is unknown or may have an environmental link.

Eye Disorders. Any congenital or genetic defect of the eye causing progressive blindness in one or both eyes and/or requiring surgery or ongoing medication, as diagnosed by a Veterinary Ophthalmologist. Proof is to include copies of diagnosis and treatment documentation from a Board Certified Veterinary Ophthalmologist.

Cardiac (heart) Any genetic or congenital heart disorders requiring surgery or a heart disorder requiring life-long medication diagnosed by a Board Certified Canine Cardiologist.

Von Willebrand Disease (vWD) (blood disease) (proof submission to include verification by using a DNA test for vWD)

A hereditary/congenital disorder that is life threatening or greatly diminishes the dog's quality of life, diagnosis to be verified by a lab or expert with knowledge in the field, and proof submitted to Seller.

What is not covered

This warranty does not include viral illnesses, infections, improper bites, hernias, hypoglycemia, worms, giardia or coccidiosis. It also does not include any illness due to the ingestion of foreign objects, food, plants, chemicals or other items, physical injury or issues whose cause is unknown or may have an environmental link or illnesses from unknown causes that are not preventable by genetic pre-screening including but not limited to cancerous growths. Not included in this guarantee are health problems arising from trauma, abuse or failure to maintain general health care of this dog, including allowing the dog to become overweight. Also not included is injury to joints or bones from over-exercise. Since current veterinary science shows that dysplasia is more a product of nutrition and environment than genetics, dogs that are at any point overweight or that incur injury to bones or joints from over-exercise or exposure to improper or harsh environment are explicitly excluded from warranty of hip or elbow dysplasia. Veterinary records must be provided to seller if requesting refund or replacement. Under no circumstances shall the seller be liable to the buyer or to any third party for a dog that has been subjected to abuse, accident, negligence, or misuse. Also, under no circumstances shall the seller be liable for any consequential, incidental, or special damages resulting from or in any manner related to this dog.

All refunds are cumulative and once the full purchase price of the puppy has been refunded to the buyer, for whatever cause, the warranties expire and the seller has no further monetary obligation to the buyer.

Buyer Responsibilities:

- Take the puppy to a licensed veterinarian within one week of leaving our property for a wellness puppy check. No vaccinations will be needed at this visit as MA Doodles has our puppies vaccinated by the age of 8 weeks. Buyer will be made fully aware of vaccination schedule at the time of pick up and will be made aware of when the next series of vaccinations are due. If the puppy receives a repeat vaccination at the puppy wellness check it will void out any health guarantees as over vaccinating a puppy can cause a health risk and lead to death.
- Provide routine preventative health care including, but not limited to,

Failure

to do any of the above voids this guarantee.

inoculation, parasite control, monthly heartworm prevention, and other preventative medication

- Feed quality food and provide fresh water at all times

- Not allow the dog to become overweight or over-exercise
- Not subject the dog to harsh environmental conditions, including, but not limited to, sleeping on concrete or other hard surfaces or prolonged exposure to extreme temperatures or extreme weather conditions
- Not be kept outside overnight
- Provide at least minimum basic obedience training
- Spay or neuter the dog by 12 months of age
- Not to rehome the dog without first contacting the seller
- • Never turn the dog over to a shelter or rescue
